

NUDECRYLICS™

COVER POWDERS

Creating an acrylic powder that gives you that au-naturelle look has never been an easy task – until now – introducing Nudecrylics™ Cover Powder – the naturally shaded acrylic powder designed to match the undertones of your skin. Nudecrylics™ is perfect for clients with warm, cool, neutral or a mix of warm and cool undertones.

Once you figure out your clients skin undertone, you can use Nudecrylics™ to create nails that will keep clients coming back time and time again.

With the Nudecrylics™ Cover Powders any nail tech can:

- Perfect for retouches by camouflaging re-growth of the free edge and speeding up your service.
- Easily use with nail forms to sculpt a entire nail.
- Over tips as overlays.
- Can be applied over natural nails.
- Simply creates slender nail beds.
- Create an overlay application on the entire nail that looks like a one color process for a natural polished look.
- Used for correcting unevenly nail beds or nail beds that have been bitten.
- Perfect for fixing short, damaged nails.

Nudecrylics™ can be used by any nail tech, whether they are a beginner or with years of experience. Nudecrylics™ are non-yellowing, lift resistant and contain NO MMA.

NUDECRYLICs™
COVER POWDERS

sun kissed (neutral)

Neutral cover powder that works with almost every skin tone. Blends right in with the color of your client's nail plate.

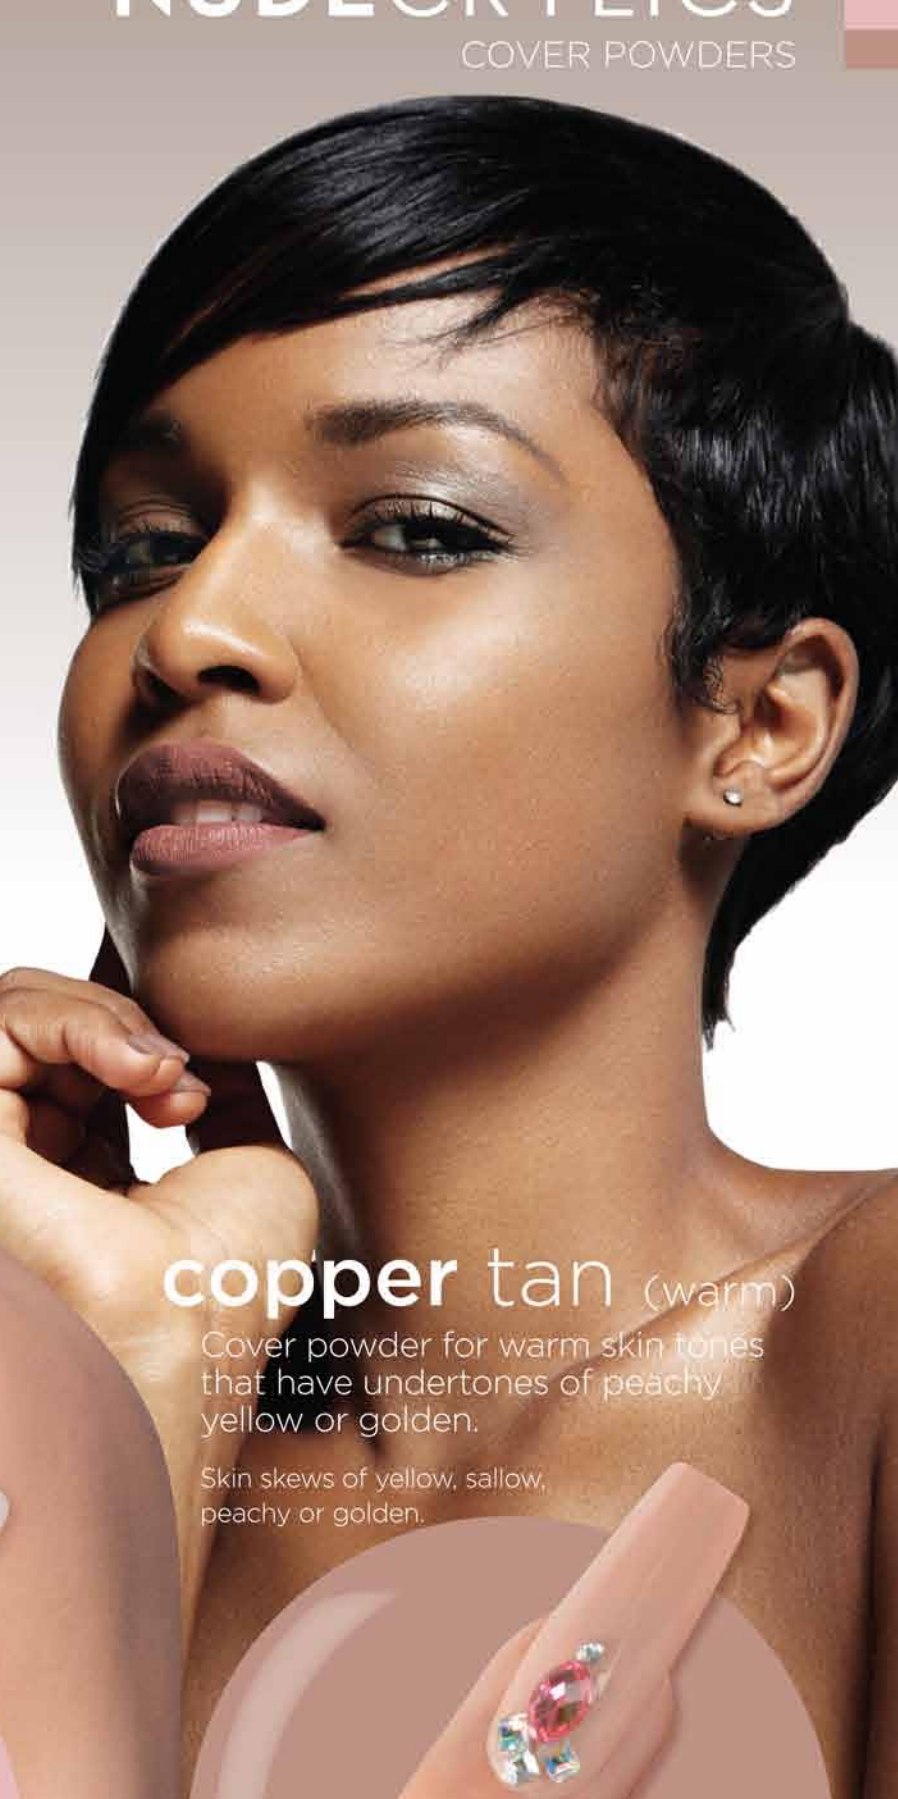

Has no obvious overtones of pink or sallow skin, but rather the skin's natural color is more evident.

doll tan (cool)

Light pink cover powder for light skin tones. Creating the illusion of a longer nail plate.

Hints of bluish, pink or ruddy complexion.

copper tan (warm)

Cover powder for warm skin tones that have undertones of peachy yellow or golden.

Skin skews of yellow, sallow, peachy or golden.
