The Oxygen Infusion Facial

The Oxygen Infusion Facial is a painless procedure that helps refreshes the skin's texture and appearance. This specialized beauty treatment is designed to replenish the levels of oxygen in your skin, smoothing out wrinkles and restoring a youthful appearance to your face. Oxygen Infusion Facial helps:

- Skin Hydration
- Restoring cell nourishment
- Stimulate collagen production
- Increase circulation
- Improve overall skin texture
- Accelerate healing
- Detoxifying skin
- Problem and sensitive skins
- Maintain a smoother healthier glow

After an oxygen facial, you can expect to see a more refreshed and rejuvenated complexion. One that makes you look well-rested with a just-back-from-vacation glow. For this reason, the oxygen facial is perfect before special occasions when you want to look your best without any downtime.

The Oxygen Peel Facial

The Oxygen Peel Facial is a painless, skin treatment procedure that dramatically improves the appearance and texture of your skin in a rapid manner. The treatment combines pure oxygen and sterile saline to gently cleanse and hydrate the skin. The combination is delivered much like an airbrush treatment (mini pressure wash) and the effect is amazing. This gentle cleansing unclogs pores and removes dirt and makeup that can build up on the skin's surface over time. Oxygen Jet Peel treatments are highly beneficial for skin texture improvement, wrinkle reduction, and overall skin rejuvenation. These treatments are also beneficial for minimizing acne breakouts. Jet Peel quickly addresses eruptions, resulting in acne breakouts drying up and almost disappearing overnight.

DIAMOND MICRODERMABRASION:

Diamond Microdermabrasion is one of the easiest and most effective ways to fight the effects of aging. With the use of high-tech skin care products, specialists can penetrate deep into the skin, allowing your body to build collagen and help you recover your youthful appearance. Diamond microdermabrasion works with a diamond-tipped handpiece that gently abrades and exfoliates dead skin cells. The diamond-tip microdermabrasion is safe to perform closer to the eyes and has more flexibility in sensitive areas or on more sensitive skin. Diamond microdermabrasion is a great choice for treating: Flaky Skin, Wrinkles and fine Lines, Age spots and Hyper Pigmentation, Acne Scars, Oily Congested Skin, Blackheads, Whiteheads, Ingrown Hairs, Sun Damage, Crow's Feet, Stretch Marks, Enlarged Pores, Blemishes, and more.
