Nordic Care®  
Swedish Body Care

***Treat Your Skin Right***

# Nordic Care

Swedish Body Care

*The condition of our skin is determined by many factors: genetics, exposure to the environment, nutrition and overall state of health. How we protect and nourish our skin controls how it ages. As the largest organ of our body, keeping our skin healthy protects us from infection, bacteria and toxins. Healthy skin also "breathes" allowing pores to release toxins from within our body.*

All Nordic Care products are made using Swedish formulas with ingredients that are proven beneficial for the health of your skin.

## Foot Care Cream

Nordic Care's Foot Care Cream is extremely effective in the control of dry skin and cracked heels. The unique combination of ingredients helps form a barrier to allow the skin to heal from within.

## Skin Conditioner

A full body moisturizer that nourishes and hydrates dry skin. Macadamia Oil with its many benefits, help cell-regeneration and assists with redness while relieving itchy skin. Aiding in retaining moisture, it helps repair damaged skin leaving it silky and youthful looking.

## Hand Cream

Antioxidant rich emulsion to prevent dry and chapped hands while improving skin tone. It helps restore the barrier between the skin and the outside environment reducing dry and itchy skin.

## Bath Crystals

Dead Sea Salt contains 21 minerals including magnesium, calcium, sulfur, bromide, iodine, sodium, zinc and potassium. Treats skin conditions and improves internal processes while relieving muscle tension and stress with a relaxing scent of the ocean.

## Foot Oil

A combination of 100% natural oils and fruit acids to aid in reducing inflammation, killing Fungi and helps provide energy for the growth of healthy skin. AHA Acids and nourishing oils moisturizes, softens and protects the skin from damaging environmental elements. Peppermint and Patchouli oils give it an herbal and clean scent.

## Fragrance Variations

**Foot Care Cream** - with peppermint essential oils for extra benefits.

**Body Lotion** - Using a blend of Essential oils for a sweet and refreshing scent.
